Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: With respect to the statutory rejection set forth in claims 15 and 16, It was agreed upon that the use of claim language such as "execution" or "implementation" in describing the relationship between the data structure and the operating system, in particular how the data structure causes an effect on the operating system.

In regards to the proposed amendment of independent claim 1, it was agreed upon that moving the limitations previously set forth under claim 6, that pertain to the use of a "proc structure", are sufficient in overcoming the previously set forth rejection. Upon receipt of the amendment an updated art search will be performed..
